PROFILE

UI/UX Designer with hands-on experience designing confidential SaaS, ERP, desktop and mobile product experiences. Skilled in Figma, wireframing, prototyping, user flows, design systems and developer handoff. A strong background in computer science, with the ability to understand complex business requirements and turn them into clean, user-centered interfaces.

EXPERIENCE

UI/UX Designer Jan 2026 – May 2026

Confidential SaaS / ERP product · Remote · Saudi Arabia-based company

- Worked on the UX/UI design of a confidential business collaboration platform across desktop and mobile experiences.
- Designed and improved user flows for communication, workspace management, scheduling, files, notifications, permissions and user roles.
- Contributed to ERP-related interfaces, including data-heavy screens, forms, tables, filters, dashboards and internal business workflows.
- Created wireframes, high-fidelity mockups, component states and interactive prototypes using Figma.
- Improved complex workflows by simplifying navigation, reducing visual clutter and applying mobile and desktop UX best practices.
- Collaborated with developers and stakeholders to translate business requirements into clear, usable product designs, while respecting NDA restrictions.

Software Developer May 2024 – Jul 2024

XpertBot · Internship

- Managed code versioning and collaboration using Git.
- Tested and debugged API endpoints to ensure functionality and reliability.
- Designed and managed Laravel models with Eloquent relationships (one-to-one, one-to-many, many-to-many).
- Used Eloquent ORM and Query Builder for efficient database queries and JSON data handling.

UI/UX Design Jan 2024 – Feb 2024

Codsoft · Internship

- Streamlined mobile app sign-up flows for improved user onboarding.
- Crafted engaging email templates for enhanced communication and user engagement.
- Designed an intuitive restaurant menu app interface using Figma and Adobe tools.

WHAT I DO

Wireframing · Prototyping · User flows ·
Design systems · Developer handoff ·
Web design

◆ SELECTED WORK

Artigo App

App design

A museum companion that helps visitors find the exhibits that matter to them and plan a route that fits their time.

mohamaddiab.com/projects/artigo-app

Medicaly

App design

A mobile app for finding a doctor, booking appointments and setting medication reminders without leaving home.

mohamaddiab.com/projects/medicaly

Emirates Airlines

Web product

A design task: a calmer Emirates homepage, built around a simpler flight search and a fare calendar.

mohamaddiab.com/projects/emirates-airlines

PhoenixBigo

Product case study · 2026

One identity, many markets: a top-up platform where a country is configuration, not a redesign.
